### **Gas Country Faucet Fired Turkey**

- Open kitchen faucet to fill sink with "naturally occurring" brine and secret "seasonings" (recipe not disclosed).
- Soak turkey for 1 hour then drain fluids into holding tank. Retain fluids for gravy.
- Open window, prop turkey on sink edge (closer to faucet for more crispy skin).
- Turn "water" on medium-high and ignite.
- Cook until turkey explodes.
- Serve only to gas drilling executives!
